

**Innovation**  
**Leading Engineering**  
**True Partnership**

Established in 1950, Silbermann's Medical Gas System products have been trusted by hospitals around the world. Supplying a range of top-quality products worldwide, Silbermann has earned global recognition as a leader in designing and manufacturing booms/pendants for OT & ICU's, medical gas delivery systems, oxygen and vacuum therapy equipment and patient care solutions.

**One Area of Expertise, Many Areas of Application**

Silbermann invests its full energies and resources in one area of expertise - medical gas systems. We consistently provide solutions to various markets and offer a wide range of innovative products, varying in size and application, including:

**Medical Gas Pipeline Systems**

**Medical Architectural Equipment**

**Booms/Pendants**

**Central Supply Systems**

**Oxygen & Suction Therapy**

### Safe and Reliable

Silbermann products incorporate proven design and engineering features. Together with its quality management systems ISO 9001-2015 & EN ISO 13485-2016 Silbermann offers a durable warranted solution that complies with international standards. All our products are CE marked for Medical Device Directive (93/42/EEC) by the German notified body TÜV-SÜD.

Our products comply with NFPA99, ISO7396, G0-1 & HTM 02-01 where applicable, giving global customers a total solution.

### Global Partnership

Silbermann, a family owned business, is managed today by the family's 3<sup>rd</sup> generation.

We feel that business means people dealing with people. We pride ourselves on our reputation for having long-lasting relationships with our customers, spanning over decades and distances and for building solid, long-term relationships based on commitment and trust.

### Education and Experience

More than six decades of designing and manufacturing medical gas systems have made Silbermann a knowledge center for those working in the field of medical gas systems. Silbermann offers its customers and channel-partners special training in medical gas systems design, maintenance and standards. Silbermann is capable of carrying out turn-key projects including modular OTs , oxygen generation plants and more.
